OUTSIDE THE BOX LESSON IDEAS

Is there a bigger life lesson to be learned?

Can I compare it to an app or game that students love?

Could students timeline or storyboard it to understand better?

How would one use social media to describe it?

Could song lyrics or music help understanding?

If I were designing a t-shirt for this lesson, what would it say?

Does a student have a talent that could help teach it?

**OUTSIDE THE BOX
LESSON PLAN IDEAS**

Who could visit class via video call to bring expertise?

Can I make a connection to pop culture?

Is there an image / photo that makes the point clearly?

Do you have a personal story that illustrates your point?

Could seeing things through someone else's eyes give perspective?

Tech tip: Capture, edit, and share videos with the ScreenCastify Chrome extension. Videos save directly to your Google Drive.
